# The UN MUSIC *Ensemble*

**A Brilliant, Unique, Simple Approach**

**for all Your  
Musical Occasions**

## First-class Musical leadership

The UN Music Ensemble for the Environment is proud to be directed by Shama Alexei Milan, an outstanding professional, composer, director, contrabassist and guitarist who received his training in Cuba's world famous Escuela Nacional de Arte. S.A.M has acquired world-wide international experience in a wide range of major musical styles.

He is also the creator and director of La Orquesta Juvenil de Cuba para la Ecología (A classical orchestra of very young musicians who dedicate their passion for music to the promotion of environmental awareness in Cuba). A contribution from each concert is used to help this youth orchestra.
