

## What is the "UN Music Ensemble in Geneva" ?

The "UN Musical Ensemble in Geneva" is a partnership offering a unique combination of music groups that brings to any event a distinctive flair, a rare combination of musical and cultural diversity that reflects the global nature and mission of the UN. The music is brought to your diplomatic, official, community or private event with special attention paid to quality, subtlety and confidence, making your event an occasion to remember.

## How is the UN Music Ensemble connected to the UN?

The UN Musical Ensemble was created by the UN Music Club, an association bringing together UN Staff Members serving mostly in the UNOG and other UN agencies in Geneva, and their professional partner: Aqua Potable Music Project. The Music Club has been performing at a high level for all kinds of occasions for official, staff and private events within UNOG and beyond. Among other aspirations, the Music Club aims to reflect the main goals and ideals of the UN Charter through its music : Peace, Cooperation and Understanding among Peoples and Nations.

## A very broad repertoire

The approach is based on a very broad repertoire that will satisfy the requirements of any event. Whether it is a diplomatic reception, an International Day Celebration, a community festival or a private event, this approach will adapt to your needs, creating a wide range of musical atmospheres, spanning from classical music to jazz, world music, pop and salsa.

How does the UN Music Ensemble manage to offer a unique à-la-carte formula?

## A large ensemble

### The UN Ensemble for the Environment

At the core of our approach is a large ensemble staging 20-something musicians (instrumentalists and singers) whose special compositions are dedicated to the beauty of our planet and the promotion of environmental awareness through inspirational music.

## Several smaller ensembles

The Ensemble can break into smaller groups to suit any occasion:

### The Classical Music Ensemble

can bring European charm and subtlety to start an evening or grace a quiet moment.

### The Blue Peacock JAZZ Septet +

(Swing, Bossa Nova, Modern Jazz, Latin Jazz) play the kind of polished jazz which will bring a touch of swing and artistry to make your evening sparkle and shine.

### Aqua Potable Music Project

simply the best SALSA specialist in Geneva and possibly in Western Europe (playing music by Buena Vista Social Club and more) will bring everyone out of their seats onto the dance floor to finish off the evening on a cheerful note.

### THE WORLD MUSIC VIBRATIONS GROUP

plays music from different regions of the World to suit any specific event such as a national celebration to reflect cultural pride and identity.
